AutoO₂'s load builder creates shipments that will utilize 98%+ of a trailers capacity – maximizing both cube and weight. AutoO₂ provides **significant additional savings** over other load builders by also guiding the pickers and loaders in the warehouse how to build tall, stable and damage free pallets while also ensuring the axles are legal!

AutoO₂ works with:

- SAP APO, SD, EWM
- JDA Planning, WMS
- Manhattan Planning
- Oracle Planning
- Home-grown systems

Benefits our customers receive:

- 4-8% transportation savings
- 15-20% pick & load productivity increase
- Up to 75% damage reduction
- Go-live in two months
- Guaranteed savings!
